

Hopper's Cakes ESTIMATE

INFO App Design Doc. Version 1.0 2021.11.26	Document Revisions
	2021.11.26
	Document Brief
	This document serves as an estimate for the creation of a mobile app for Hopper's Cakes that allows users to fully customize cupcakes for a personalized experience.
TO CLIENT / FUNDING BODY / PRO BONO	Project Description
	For this project the app will guide the user through each step as though they are making the cupcakes themselves, allowing them to pick and choose every option, making the experience fun, creative and personalized. If time permits, we will add an additional page for adding gifts to the cupcakes. Then we will turn the experience to a more virtual experience with the use of a hologram as the user builds the cupcake. And the last feature if time permits, will be the hologram materializes from the recipient's device for an immediate treat.
FROM Vanessa O'Neill	Timeline
	Launch date: April 30, 2022.
	Risk Assessment
	<p>Risk assessment identifies areas of concern in a project. Though I offer line item estimates for tasks, areas of risk are flagged for possible budget increases and timeline changes.</p> <p><u>Core Logic</u> All custom work with this level of complexity is an area of risk, as it represents unknowns on many levels. At the start of work, as far as possible, the complete logic flow for the system will be mapped out. Any omissions, special cases, or later changes will likely impact subsequent work.</p>

	Pricing and Scope of Work
	<p>The standard rate for design, site development, implementation and maintenance work is \$45per hour, and time assigned to the tasks delineated below reflect all time involved in the developer's completion of the task, including meetings, coordination, communications, and development time. Rates are subject to change and are normally adjusted yearly. The client will always be notified of the relevant rates and hourly estimates prior to commencing work on a given task. When an overage of more than 25% will occur for a task Vanessa will first obtain approval from the client before proceeding.</p> <p>The tasks detailed below constitute the scope of work. Additions or notifications to the scope of work will incur additional expense and require additional time.</p>
	Ownership
	<p>The work product within the scope of this project will consist of the customization of existing software and the creation of new software for use by the client, as well as template code and custom configuration for the chosen platform. Hopper's Cakes will retain ownership of the template code and configuration. Vanessa O'Neill Designs will retain ownership of the software that is created and customized. In addition, Vanessa O'Neill Designs hereby grants to Hopper's Cakes a worldwide, perpetual, non-transferable, royalty free and fully paid up license to use the software it creates and customizes for this project.</p>

This deposit is retained to service cash flow needs, and will not be billed against as payment for costs until the project has reached 75% completion.</p> <p>Vanessa O'Neill Designs will bill twice monthly throughout the life of the project. Invoices are due net 30. Once an invoice is overdue, Vanesa O'Neill Designs will charge 5% interest per month until the balance is paid.</p>
